Sculpt Captivating Curves

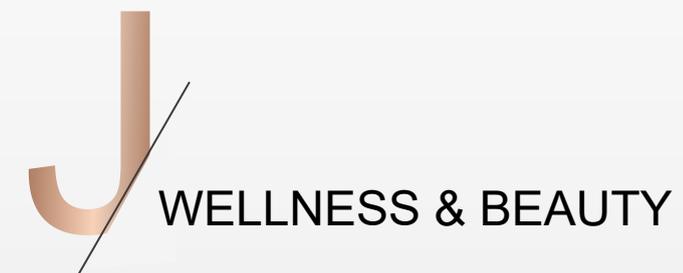

Dr. J: AI-Powered Breast Health & Beauty

**Restore Vitality
Enhance Beauty
Elevate Perfection**

DR.J^{AI}

**AI as a guardian
against breast disease**

Dedicated to AI breast care
innovation for the protection of
human health, empowering
beauty and wellness together.

About Us

- Proven in multiple government-led breast cancer screening projects, with hundreds of thousands of successful cases, and highly acclaimed by leading medical experts.
- Led by a world-class R&D team comprising internationally-trained Ph.D. scientists, former Fortune 500 executives, and top researchers from elite institutions such as Tsinghua University, Google AI, Northrop Grumman, and the Hong Kong AI Research Institute.
- Holder of exclusive national invention patents.
- Strategic partner to global tech leaders including Intel, NVIDIA, and AWS, and selected as a Global Lighthouse Project.
- Extensively featured by state-level media such as Xinhua News Agency and People's Daily, and acclaimed as "a paragon of national innovation and high-end manufacturing," alongside achievements like the Long March rockets and Fuxing high-speed trains.
- Invited to collaborate on AI research projects with the National Cancer Center / Cancer Hospital of the Chinese Academy of Medical Sciences (Peking Union Medical College).
- Highly acclaimed by scientists from the American Society of Surgical Oncology (SSO), who stated: "Dr. J has significant value for global adoption."

The Dr. J AI Series:

DR.J^{AI}

A Complete Solution for Breast Wellness & Aesthetics

AI Breast Health Assessment

See What Others Can't

Validated in large-scale public health programs, our AI delivers a **scientific, objective, and non-invasive assessment**, creating a powerful tool for building client trust and guiding recommendations.

AI Synergistic Ultra-Electric Therapy

Clinically Proven in Top Hospitals

Using our clinically-verified "Ultra-Electric" technology and botanical formulas, Dr. J Master delivers **precise, effective, and comfortable care** that addresses root causes.

Smart Home Care Extension

Extend Professional Results at Home

The perfect supplement to our professional programs. This advanced home device allows clients to continue **personalized, gentle energy conditioning** to sustain treatment results, improve breast health, and enhance firmness.

AI Breast Health Assessment Robot

CORE STRENGTHS

01 Advanced

Cutting-edge AI Image Recognition Technology: Provides precise breast health assessments, significantly enhancing customer trust and loyalty.

02 Safety

Non-invasive, Painless, and Radiation-free: Ensures an exceptional user experience with easy-to-learn, safe, and reliable operation, supporting rapid deployment and service.

03 Convenient

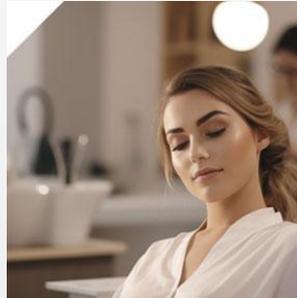

Compact and Portable: Convenient to carry, setting a new trend in health management and preventive care.

04 User-friendly

Simple Interface with Clear Processes: Easy to learn and use, with full-process monitoring for standardized and high-quality detection.

6 KEY FUNCTIONAL ADVANTAGES

- Automated Detection and Annotation of suspicious Risk Areas
- Automated Calculation of suspicious Risk Area Size
- Automated Breast Health Classification
- Automated Monitoring Operational Methods
- Automated Generation of "Breast Health Intelligent Assessment Report"
- Private report delivery to the client's mobile device

AI-Powered “Ultra-Electric” Energy Platform

DR.J^{AI}

Our Signature AI Synergy Treatment

A comprehensive session combining our AI-powered device with expert manual application and professional essential oils.

20-30 min Device + 30 min Manual Technique

Dr. J Master: AI-Powered “Ultra-Electric” Energy Platform

An Integrated AI System for Comprehensive Breast Wellness.

Mechanical Effect — Deep Precision Penetration

1 MHz focused ultrasound delivers precise, uniform energy to deep into tissue layers, achieving results beyond traditional heat therapies.

Experience targeted energy delivery for effective deep-tissue activation and repair.

Thermal Effect — Smart Temperature Control

AI-driven temperature control intelligently balances thermal and non-thermal effects, ensuring personalized comfort and optimized treatment efficiency.

Smart care that adapts to every individual.

Physicochemical Effect — Targeted Softening & Detoxification

Synergistic “Ultra-Electric” stimulation enhances cellular vitality and pH balance, promoting the softening of dense tissue, dissolving blockages, and relieving discomfort.

Restoring natural balance from within.

Resonance Effect — Enhanced Circulation & Drainage

Gentle pulsed resonance promotes natural circulation and lymphatic drainage, improving overall breast wellness.

Reactivating the body’s natural rhythm for smoother, healthier flow.

Safety, Gentle & Soothing

DR.J^{AI}

APPLICATION ADVANTAGES **TANGIBLE BENEFITS**

1 Ultra-Electric Therapy

Softens blockages and promotes smooth milk flow.

2 Pain-Free Synergy

Combines ultrasound and manual care for zero-pain treatment.

3 Efficiency Revolution

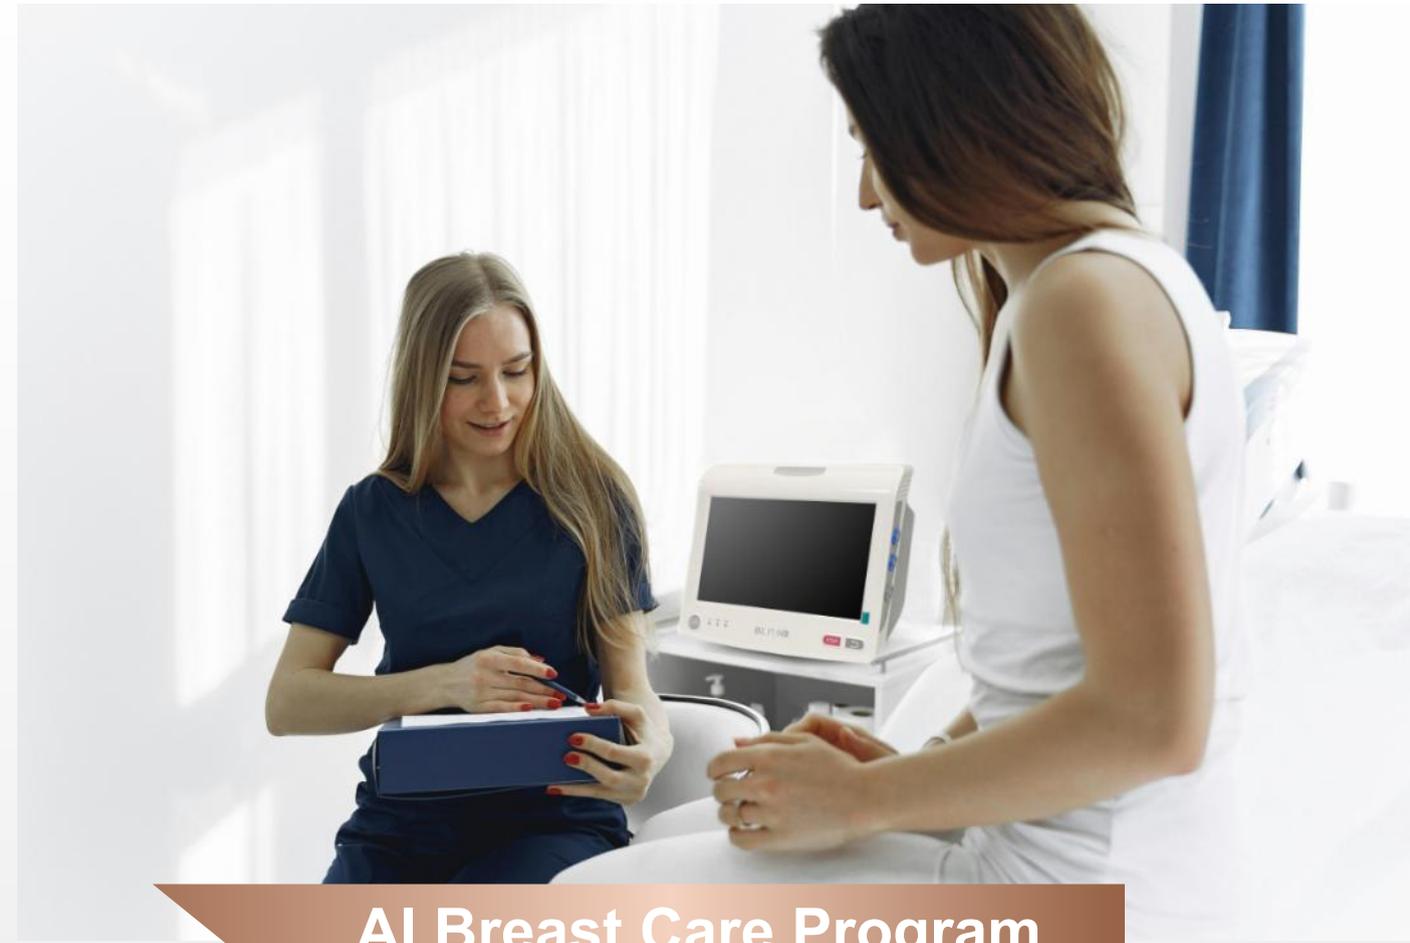

Cuts treatment time by nearly half.

4 Mutual Benefits

Improves patient comfort and reduces practitioner workload.

5 Smart Integration

An integrated solution setting a new breast care standard.

AI Breast Care Program Smart, Gentle, Effective

- Lactation Support:** Stimulates natural milk production and promotes healthy flow.
- Duct Clearing & Relief:** Gently unblocks milk ducts and alleviates related pain.
- Lactation Suppression:** Enables a comfortable, gradual reduction of milk supply.
- Wellness & Conditioning:** Helps relieve discomfort from benign breast conditions such as mastitis.
- Postpartum Firming & Toning:** Improves tissue tone and elasticity after childbirth.
- Aesthetic Enhancement :** Refines skin texture and reduces pigmentation for a more balanced appearance.

Treatment Proposal

01 Breast Care & Conditioning Package

This package includes the following:

- Four (4) AI-Powered Breast Health Assessments.
- Ten (10) AI-Powered Breast Care & Conditioning Sessions
(Includes 20-30 min AI device treatment [10-15 min per breast] & 20-30 min manual massage).

02 Service Process Flow

Initial Assessment: Conducted before the first treatment session.

Progress Checkpoints: Follow-up assessments are performed after the 3rd, 6th, and 10th sessions.

Visual Tracking: Provides clear, visual tracking of your progress and treatment effectiveness.

Real-World Case Studies

DR.J^{AI}

01 New Mom: Postpartum Emergency Relief

Condition: Engorgement & Lymphatic Swelling

Challenge: Severe milk stasis causing painful lumps and axillary swelling. High anxiety due to discomfort.

Solution: DR.J AI Assessment combined with Ultra-Electric Therapy and professional manual techniques.

Outcome: Significant softening of lumps, elimination of pain and swelling, and restoration of normal milk flow.

Testimonial:

"It was nearly painless compared to traditional massage. The problem was solved instantly—what a relief!"

03 The 40+ Woman: Relieving Psychological Burdens

Condition: Hyperplasia & Nodule Therapy

Challenge: Chronic hyperplasia and pre-menstrual pain. Sought a proactive, non-pharmaceutical solution instead of passive observation.

Solution: DR.J AI Dynamic Tracking with regular Ultra-Electric Therapy maintenance.

Outcome: Significant pain relief. Nodules became smaller and softer; the chest feels lighter and relaxed.

Testimonial:

"I treat this as my regular breast care routine. No drugs, just visible progress tracking. Seeing the results gives me real peace of mind."

02 Corporate Professional: Addressing "Invisible" Stress

Condition: Multiple Cysts & Lymphatic Congestion

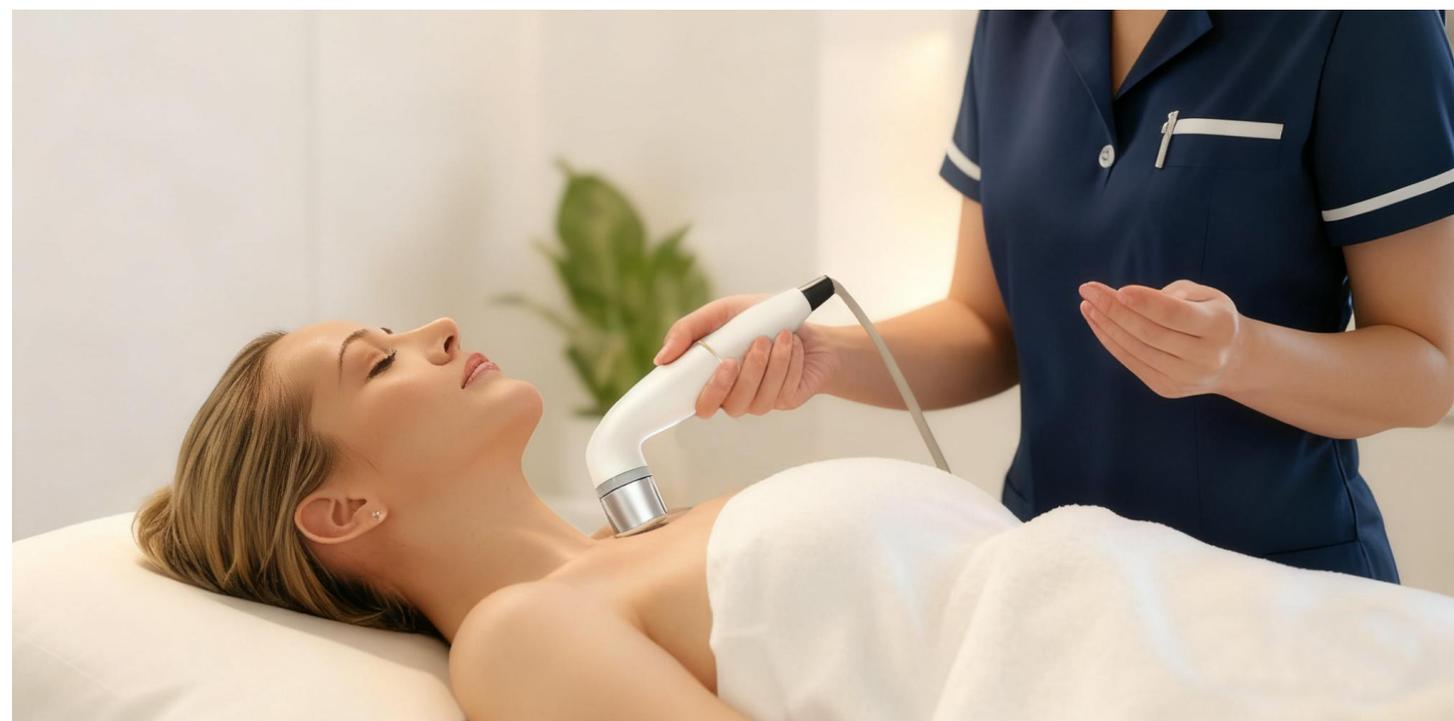

Challenge: Diagnosed with multiple cysts and armpit discomfort linked to stress. Frustrated by passive medical advice ("watch and wait").

Solution: Deep tissue activation via Ultra-Electric Therapy paired with professional lymphatic drainage.

Outcome: Discomfort vanished; upper body feels lighter. AI tracking confirmed cyst shrinkage after one treatment cycle.

Testimonial:

"Doctors always said 'watch and wait,' which felt passive. Now, I'm comfortable and can see actual physical changes. I'm finally taking charge of my health."

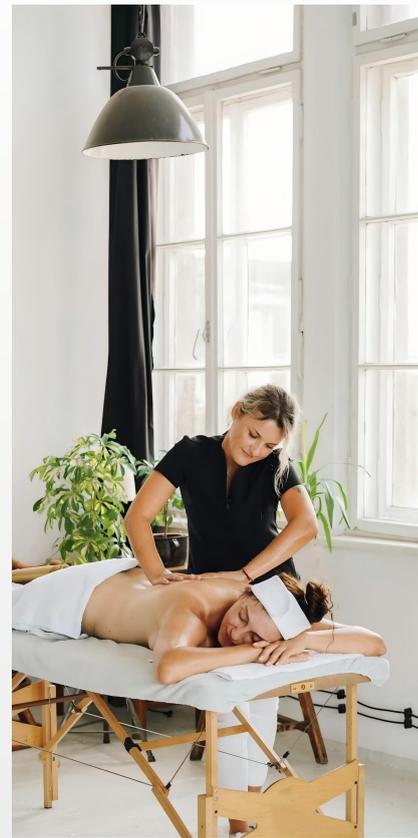

APPLICATION SCENARIOS

Where Dr. J Series Makes a Difference

Clinics & Medical Centers

Professional use in outpatient and specialty care for breast health and wellness.

Aesthetic & Wellness Centers

Enhancing recovery, relaxation, and aesthetic wellness programs.

Postpartum & Lactation Centers

Supporting breast comfort, lactation care, and postpartum recovery.

Health Management & Wellness Centers

Empowering personalized women's health programs and preventive care.
